EXHIBITION: Reiner Riedler: The Lifesaving Machines, Sous Les Etoiles Gallery, 560 Broadway #603, October 30-December 20, Opening Reception October 30, 6-8 PM

Photographer Reiner Riedler was initially inspired to shoot medical machinery after the birth of his son, who spent time in an intensive care unit. After seeing the newborns hooked up to lifesaving devices, Riedler embarked on a journey to laboratories producing these delicate and powerful machines. Removing them from the context of a life and death crisis, the photographer traces their otherworldly beauty, setting them against an austere black backdrop. In his second show at Sous Les Etoiles Gallery, Riedler presents this body of work.
